It is all about your laboratory information management system or, for short, LIMS.

Do you need help with your LIMS introduction or current implementation?

ApiThinking supports you gladly by offering the following services:

- Project management and consulting
- Configuration and implementation
- Instrument integration and migration of legacy data
- Requirement engineering and computerized system validation
- Workshops and issuing training materials
- Release rollout
- Upgrade and support

I am your contact person at ApiThinking

Raoul Axinte, Ph.D.

IT Consultant / Key Account Manager

raoul.axinte@apithinking.de | +49 (0) 6131 48 14 300

“ My mission is enthusiastic customers due to customer-oriented thinking, short response times, and open communication.
